the yacht

The 28.1 metre motor yacht Excelerate Z left the Sunseeker yard in southern England in 2006 and over the past 13 years has undergone an exciting transformation. In 2017, the sleek Sunseeker 94 was purchased by Excelerate Technology Group, the leading provider of fast-response data services for the UK emergency services and government, and in 2017, she underwent an extensive tech refit, making Excelerate Z one of the

most spectacularly connected and technologically well-equipped yachts on the charter market for her size.

The only Sunseeker to our knowledge with an interior specially designed and supervised by the legendary Jon Bannenberg, her luxury interior design and tech-savvy systems combined with her exceptional crew, make her the perfect charter yacht for pleasure or business.

special features

- Spacious social areas
- Ultra fast broadband
- Conveniently based in Antibes
- Perfect charter for events
- Good deck space with sunbathing area
- Expansive top deck with jacuzzi
- Modern and sleek design
- Zero speed stabilisers

the experience

Following completion of her refit, Excelerate Z is a fantastic new addition to the charter market, operating year-round in the Mediterranean and conveniently based in Antibes. She offers itineraries throughout the French and Italian Rivas, Corsica and Sardinia.

Comfort and luxury are a given when it comes to a charter aboard Excelerate Z. She boasts a stylish open plan interior conceived from the drawing boards of London design studio Bannenberg & Rowell, with generous outdoor spaces where you can relax and take in the view.

Guests often gravitate towards the sundeck which includes a shaded alfresco dining area and a large sunbathing area centred around a forward-facing jacuzzi.

Heading down to the main deck, guests will find an additional alfresco dining area leading out from the main salon through sliding glass doors.

Excelerate Z comfortably sleeps eight guests in four en suite staterooms, comprising a large master suite, a VIP cabin and two twins, with an experienced team of three professional crew on hand for every need.

Perfect for a cosy family holiday along the French or Italian Riviera, or a corporate charter in Cannes or Monaco, Excelerate Z is sure to deliver.

the technology

The aim of Excelerate Z's significant refit was to improve her communications, connectivity, AV and helm stations to the standard you would expect in a five star hotel ashore – and that's exactly what guests will get. Utilising a hybrid network of satellite and cellular connectivity to create the most resilient on board internet connection, the renewed Excelerate Z is a poster child for the 21st century.

With secure connectivity and a state-of-the-art entertainment system that encompasses reliable TVRO and IPTV, you can browse the internet, watch live sport, stream the latest episode of the latest show on Netflix, FaceTime family or fix an urgent problem back in the office from anywhere on board, without impacting a few glorious days out at sea.

Confident in the constant connectivity on board, David Savage of Excelerate explains: "It really is great to say to our captain, 'Take her out as far as you can go and try to lose the internet while measuring performance in real-time'. When we say it works or out-performs other connectivity solutions, we can prove and show that it does."

Whether you appreciate her technology, her aesthetics or her modern versatility, Excelerate Z will not disappoint.
